

UAB Prekybos namai Waldis products comply with:
COMMISSION DELEGATED REGULATION (EU) 2024/197
of 19 October 2023 amending Regulation (EC) No 1272/2008
as regards the harmonised classification and labelling of certain substances

SPECIFICATION

Granular gaseous technical sulphur

The sulphur is used for production of sulphur acid and sulphate fertilizers, rubber vulcanization as well as in paper industry. In small amounts it is also used to combat plant fungal diseases in greenhouses.

	Qualitative indicators	Norma
1	Sulfur content, % by mass, not less	99,98
2	Ash content, % mass, no more	0,02
3	The content of organic compounds, % by mass, not more	0,01
4	The amount of acids converted to sulfuric acid, % by mass, no more	0,0015
5	Water content, % by mass, no more	0,5
6	Amount of mechanical impurities (paper, wood, sand, etc.)	Nėra
7	Bulk density, g/cm ³ , not less	1,04

Shelf-life Unlimited

For bulk shipment of the granulated sulphur the hopper railcars are used, and also

Packing — Big-Bags 1200 kg
